Learn English With Us

Why inlingua?

inlingua Malta has been providing successful language training to students from all over the world since 1980. Forming part of inlingua International, the largest association of privately-owned language schools in the world currently having 322 language centres in 37 different countries, we are committed to maintaining the same quality teaching standards and efficient service inlingua stands for. Our qualified inlingua trainers deliver courses with our own style of teaching, and supplement this with language learning resources developed by our pedagogical department in Switzerland. This combination of inlingua books and innovative teaching techniques is known as 'the inlingua method'. We are confident that our approach works because we have over 40 years experience in providing successful and effective language training to thousands of students worldwide.

Location! Location!

Our Centre is situated in the prime tourist area of Sliema. Overlooking a pedestrianised piazza our students benefit from this fantastic location with restaurants, coffee shops, retail outlets, public transport and leisure pick-up points situated on our door step.

The inlingua approach

- We teach English in English. inlingua material makes this possible even with beginners
- We believe that variety is the spice of teaching - our trainers have variety in their teaching
- We get the atmosphere right - students learn more efficiently when motivated, interested and happy
- We teach through examples rather than long explanations
- We test your existing language knowledge before teaching a new language
- We handle students' errors with care - the careful progression of language in inlingua courses minimises the chance of mistakes
- We believe in autonomous learning and learner-centred classrooms. We give students opportunities to experiment; the chance to create their own sentences, both to test the rules they have learnt and to use language for its real purpose - communication!
- Learn English through speaking...speaking is the quickest way to fluency...our students get to do the speaking themselves in class
